

connectCAPE Key Information for Host Businesses

Upon agreeing to be a host, you will be matched with a student via email. You will be responsible for initiating the conversation from there to set up the two shadow dates/times.

Goals of the program

- Bridge the gap between local employers and students
- Provide students with a glimpse into the career path they are interested in pursuing
- Acquaint students and businesses with the opportunity a diverse workforce provides

Requirements

- Be able to host a student for two half days (two separate four hour sessions) between March 1-31, 2019.
- Have at least one employee willing to be shadowed (student can shadow multiple employees)
- Complete survey at the end of the program

Expectations

- Present yourself and your company in a professional manner
- Provide the student with insight into working in your industry
- This is a shadowing experience, not an internship. Do not feel obligated to provide the student tasks to complete; they are participating in this program to simply observe your work.

Calendar

- Business applications open: January 16, 2019
- Business applications close: January 25, 2019
- Business connected with student via email: by February 8, 2019

Become a Spring 2019 host business by [completing the application](#) by January 25, 2019.
